### Example of my dreamhouse :

My dreamhouse is a detached-house in the middle of the countryside, in France.

It is a large old house made of stones. There are three floors and a big garden. On the ground floor, there is a large living-room, a staircase and a recent kitchen.

On the first floor, there are two bedrooms and a bathroom. To finish, on the third floor, there is a large bedroom, a study room and an attic. My favourite room is the living-room because this is where my family and I meet and spend time together. In the living-room, there is a table, there are several chairs, there is a TV and there is also a sofa.
